# Web Design using Nvu

# Pre-day Questionnaire

# What is HTML?

# HTML

Hypertext Markup  
Language

# Usability

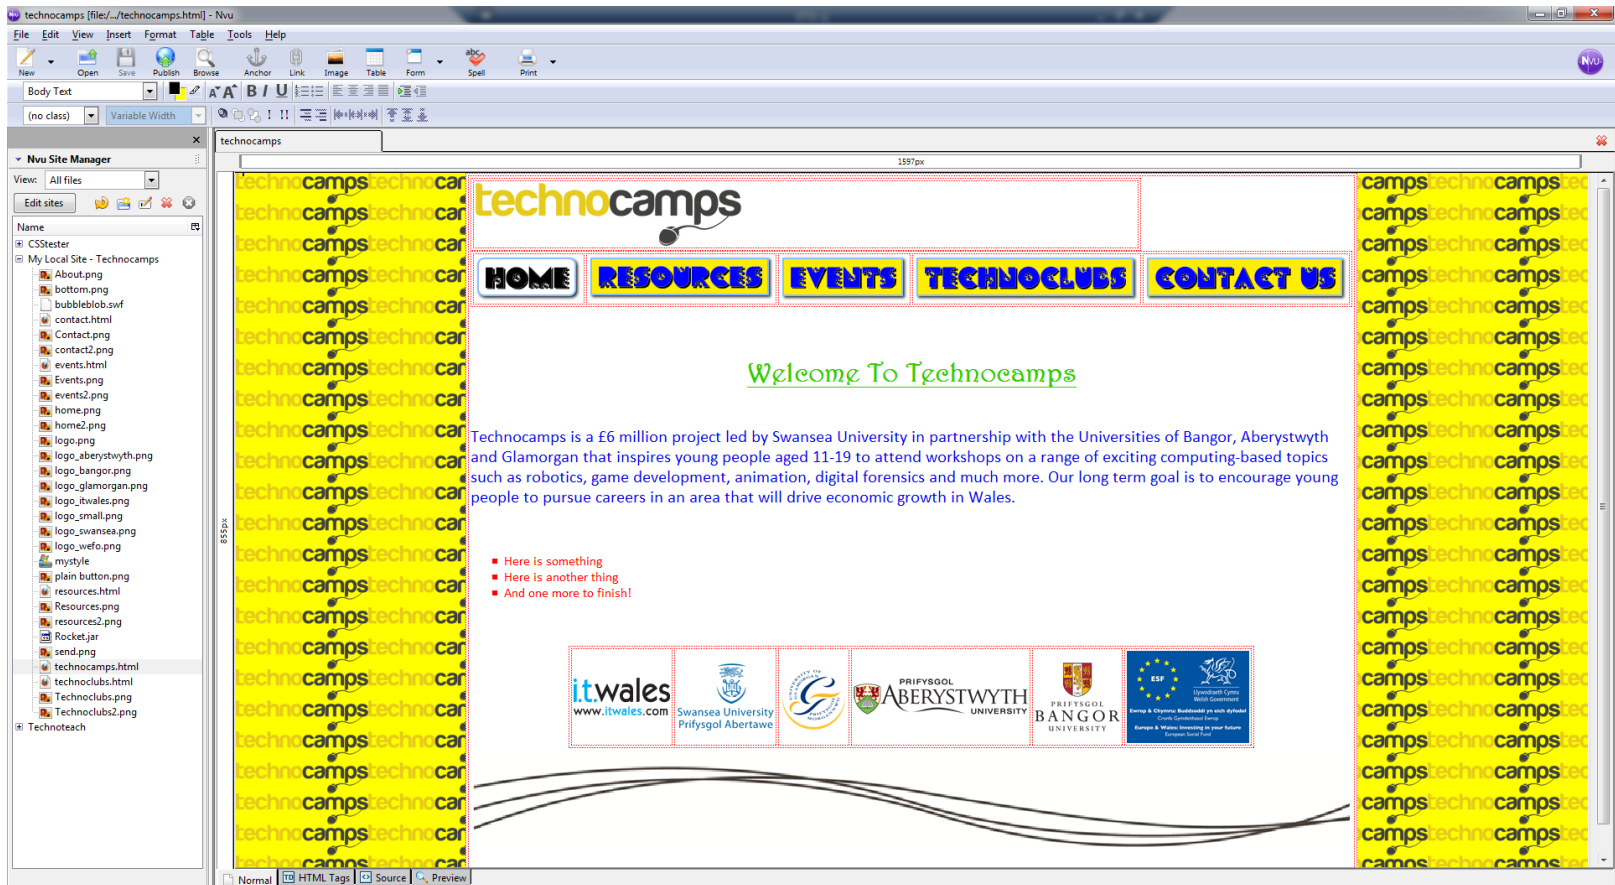

How usable is a website?

Your eyes like to see structure and table format, it makes a website more visually appealing and seem easier to use.

# WYSIWYG

What You See Is What You Get

# Let's have a go

Open Nvu on your computers...

Don't forget this can be downloaded for free on your computers at home:

- Windows
- Linux
- Mac

Let's build up a familiarity with the software first and then begin adding elements to our desired website.

# What is CSS?

# CSS

## Cascading Style Sheets

CSS allows you to fix the content of your website separate to the style.

This means you can easily change the style of your whole website using one style sheet.

# CSS

CSS is really easy to use, especially if you have written your HTML correctly.

You can even write it in a text file.

Use the workbook to have a go yourself.
